Fred A. Maynard, the Stalwart

endent Carr Thinks the Be own Plan a Good One-Ex-AMtreas's Opinion of the Lake.

Fred A. Maynard has been a con Fred A. Maynard has been a con-lection figure in republican politics in mand Happide and Kont county. Yes of in the state for the goat 10 years, is an afterney by profession and en-ys a lucrative practice, which he has silt up since 1897, when he first came or from Ann Arbor. Mr. Maynard to born in Ann Arbor. in 1800 and in se born in Ann Arbor in 1802 and in serefore, il years old. He was edu-ted in Ann Arbor, graduating from the law department in 1875, but he had sen in the office of Stephen Ballard sevious to that time. He was assistant resecutor under Mr. Bellard, and in an overwhelming majority. At the close

of his term of office he retired to private practice and rapidly gained an excellent dientage. In 1887 he was neminated for judge of the superior court to run ugainst h. A. Burlingame. He was deteated, but made a strong run considering the odds against him. Mr. Maynard has not run for office since that time, though he has always been an active advisor in all republican gatherings. He can instill more enthusiasm into a providing a five minute speech than any other man in the county. He is a fiery, forcible speaker, and is so full of republican enthusiasm that his hearers and his term of office he retired to private not help but imbibe some of it. He is a level headed business man and is one of the directors of the board of trads.

t is not commonly known that straw rist at this season of the year the aver-use man who site down to his dinner with a heaping dish of this delicious gift of the seasoner with a quarter section of strawberry short cake at his right hand would be apt to consider himself very unfortunate to know that were he to taste the tempting dish he would be made seriously sick and greatly inconvenienced. Those who are poisoned by the berries are effected in a peculiar manner. Their hands, feet and lips swell until they are like puff balls, a burning itching sensation covers the whole body and a red eruption covers the entire skin. Deputy County Clerk Edie is a victim of this unusual ill to mankind. He has learned from sad or persence not tough the fruit and never very unfortunate to know that we perience not tough the fruit and never

Looks Like a Good Plan.

"In Boston the granting of salcon li-censes rests entirely with the police board," said Superintendent Carryester-day as he produced a paper from a pigeou hole in his desk. "This is a no-tice to salcon men and hotel men that they must make their applications for hardess during the months of March and April. In Beston no man is allowed to operate one day after May 1. I think to speciate one day after May 1. I think the pion of placing the power to great liceness in the hands of the police department is good. Certainly the police department is in a better position to know who is and who is not entitled to have a license than the average alderman. They have to pay well to do business there, too. Look at these prices: \$1,500 for a first class license, \$1,200 for the second, and \$1,000 for the third."

Favors Mr. Wolcott's Crusade. Fix Alderman Doyle visited Reed's lake host Sunday and looked over the various resorts about the place. He says he was shocked at the number of young girls he eaw drinking wine and beer there. Mr. Doyle is not a temper-ance man; he takes a drink of beer or whisky when he feels like it, but he says he could not help but exclaim: "This is the gate of hell." He said he was heartily in favor of the course pursued by the presecuting attorney. Mr. Doyle says he is satisfied that if no liquor was said at Reed's lake the crowds would be just as large on Sunday as it is at present, but it would be a more refined crowd. Those who have drinking places, he thinks, could turn them into eating houses and temperance places and make as much money as they do selling

De Not Want & Cut.

De Not Want a Cut.

It has been suggested that if the city owned the land adjoining Hail park on the north that the cutting of Fulton street through the hill would not be a great damage so the sides of the slope could be cut into wide terraces and set with trees in a manner that would be quite erammental. As the property on the north side of the street is held for speculative purposes the owners would not go is the expense of terracing the bank and to cut the street through without it would leave a hare bank fifty feet high, spoiling the looks of the park along its workern border. Under present circumstances fully 30 per cent of the property owners and residents in the city are opposed to making the cut. Various plans are suggested. One is to open Fusion street to the park and have the Shawmut arenue car line extended to the park and then south to Butterwithern border. In the park and have the park and then south to Butterwith arenue, making a loop line so that these wishing to visit the park could take either line.
